

criteria are compared to an applying hospital's number of discharges for its most recently completed cost reporting period in determining if the hospital qualifies for referral center status for cost reporting periods beginning on or after October 1 of the Federal fiscal year to which the notice applies.

(4) *Applicability of criteria to HCFA review of referral center status.* For purposes of the triennial review of a referral center's status as described in paragraph (f) of this section, the referral center's number of discharges for its most recently completed cost reporting period is evaluated using the appropriate discharge criteria published in the annual notice of prospective payment rates.

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 412.96, see the List of Sections Affected in the Finding Aids section of this volume.

§ 412.98 Special treatment: Christian Science Sanatoria.

(a) *General rule.* If a Christian Science Sanatorium is not excluded from the prospective payment systems under subpart B of this part, HCFA pays, for inpatient hospital services furnished to a beneficiary by that sanatorium, a predetermined fixed amount per discharge based on the sanatorium's historical inpatient operating costs per discharge.

(b) *Prospective payment rates.* For cost reporting periods beginning on or after October 1, 1983, the sanatorium's prospective payment rate for inpatient operating costs equals the amount that would constitute the sanatorium's target amount under § 413.40(c)(4) of this chapter if the institution were subject to the rate of increase ceiling specified in § 413.40 of this chapter instead of the prospective payment systems. This amount is not adjusted for the DRG weighting factor.

(c) *Outlier payments.* A Christian Science sanatorium is not eligible for outlier payments under subpart F of this part.

§ 412.100 Special treatment: Renal transplantation centers.

(a) *Adjustments for renal transplantation centers.* (1) HCFA adjusts the prospective payment rates for inpatient operating costs determined under subparts D and E of this part for hospitals approved as renal transplantation centers (described at §§ 405.2170 and 405.2171 of this chapter) to remove the estimated net expenses associated with kidney acquisition.

(2) Kidney acquisition costs are treated apart from the prospective payment rate for inpatient operating costs, and payment to the hospital is adjusted in each reporting period to reflect an amount necessary to compensate the hospital for reasonable expenses of kidney acquisition.

(b) *Costs of kidney acquisition.* Expenses recognized under this section include costs of acquiring a kidney, from a live donor or a cadaver, irrespective of whether the kidney was obtained by the hospital or through an organ procurement agency. These costs include—

(1) Tissue typing, including tissue typing furnished by independent laboratories;

(2) Donor and recipient evaluation;

(3) Other costs associated with excising kidneys, such as donor general routine and special care services;

(4) Operating room and other inpatient ancillary services applicable to the donor;

(5) Preservation and perfusion costs;

(6) Charges for registration of recipient with a kidney transplant registry;

(7) Surgeons' fees for excising cadaver kidneys;

(8) Transportation;

(9) Costs of kidneys acquired from other providers or kidney procurement organizations;

(10) Hospital costs normally classified as outpatient costs applicable to kidney excisions (services include donor and donee tissue typing, work-up, and related services furnished prior to admission);

(11) Costs of services applicable to kidney excisions which are rendered by residents and interns not in approved teaching programs; and

(12) All pre-admission physicians services, such as laboratory, electroencephalography, and surgeon

fees for cadaver excisions, applicable to kidney excisions including the costs of physicians services.

[50 FR 12741, Mar. 29, 1985, as amended at 57 FR 39824, Sept. 1, 1992]

§412.102 Special treatment: Hospitals reclassified as rural.

Effective on or after October 1, 1983, a hospital reclassified as rural, as defined in §412.62(f), may receive an adjustment to its rural Federal payment amount for operating costs for two successive fiscal years.

(a) *First year adjustment.* The hospital's rural average standardized amount and disproportionate share payments as described in §412.106 are adjusted on the basis of an additional amount that equals two-thirds of the difference between the urban standardized amount and disproportionate share payments applicable to the hospital before its reclassification and the rural standardized amount and disproportionate share payments otherwise applicable to the Federal fiscal year for which the adjustment is made.

(b) *Second year adjustment.* If a hospital continues to be reclassified as rural, its rural average standardized amount and disproportionate share payments are adjusted on the basis of an additional amount that equals one-third of the difference between the urban standardized amount and disproportionate share payments applicable to the hospital before its reclassification and the rural standardized amounts and disproportionate share payments otherwise applicable to the Federal fiscal year for which the adjustment is made.

[58 FR 46338, Sept. 1, 1993]

§412.104 Special treatment: Hospitals with high percentage of ESRD discharges.

(a) *Criteria for classification.* Effective with cost reporting periods that begin on or after October 1, 1984, HCFA provides an additional payment to a hospital for inpatient dialysis provided to ESRD beneficiaries if the hospital has established that ESRD beneficiary discharges, excluding discharges classified into DRG No. 302 (Kidney Transplant), DRG No. 316 (Renal Failure) or DRG No. 317 (Admit for Renal Dialysis), con-

stitute ten percent or more of its total Medicare discharges.

(b) *Additional payment.* A hospital that meets the criteria of paragraph (a) of this section is paid an additional payment for each ESRD beneficiary discharge except those excluded under paragraph (a) of this section.

(1) The payment is based on the estimated weekly cost of dialysis and the average length of stay of ESRD beneficiaries for the hospital.

(2) The estimated weekly cost of dialysis is the average number of dialysis sessions furnished per week during the 12-month period that ended June 30, 1983 multiplied by the average cost of dialysis for the same period.

(3) The average cost of dialysis includes only those costs determined to be directly related to the dialysis service. (These costs include salary, employee health and welfare, drugs, supplies, and laboratory services.)

(4) The average cost of dialysis is reviewed and adjusted, if appropriate, at the time the composite rate reimbursement for outpatient dialysis is reviewed.

(5) The payment to a hospital equals the average length of stay of ESRD beneficiaries in the hospital, expressed as a ratio to one week, times the estimated weekly cost of dialysis multiplied by the number of ESRD beneficiary discharges except for those excluded under paragraph (a) of this section. This payment is made only on the Federal portion of the payment rate.

[50 FR 12741, Mar. 29, 1985, as amended at 57 FR 39824, Sept. 1, 1992]

§412.105 Special treatment: Hospitals that incur indirect costs for graduate medical education programs.

HCFA makes an additional payment to hospitals for indirect medical education costs using the following procedures:

(a) *Basic data.* HCFA determines the following for each hospital:

(1) The hospital's ratio of full-time equivalent residents, except as limited under paragraph (f) of this section, to the number of beds (as determined in paragraph (b) of this section). Except for the special circumstances for affiliated groups and new programs described in paragraphs (f)(1)(vi) and
